ARQUITECTONICA

Arquitectonica was founded 38 years ago by Bernardo Fort-Brescia and Laurinda Spear, two of the leading architects of a then emerging new generation. Today their practice spans the globe, with projects in 54 countries on five continents. Arquitectonica has 800 architects, landscape architects, planners, interior designers and industrial designers, in ten studios around the world. Its work is widely recognized through publications and exhibits, and its roster of clients includes leaders of both the public and private sectors ■
