

Inter Miami CF Stadium and Miami Freedom Park

Arquitectonica has designed the master plan for Miami Freedom Park, the future home of Club Internacional de Fútbol Miami, also known as MLS soccer team Inter Miami CF. The 131-acre (53-hectare) master plan for Miami Freedom Park calls for a new soccer-centric yet multipurpose stadium, hotels, technology offices, entertainment, restaurants and retail, thousands of covered parking spaces with various-sized soccer fields and athletic courts elevated above them, and a 58-acre (23.5-hectare) public park free and open to all. Miami's new MLS stadium will have 25,000 seats and serve as the centerpiece of Miami Freedom Park.
